RED CROSS GARDEN PARTY OUTSTANDING SUCCESS

GRAND TOTAL OF \$435.45 REALIZED

Lambert Park took on a very gala appearance with flags, pennants and streamers of red, white and blue, colored lights and various tents and booths displaying their colorful wares until midnight. The weather was perfect, which fact calls for special mention as this was the first time in the four successive years in which the elements have not put on dust storms or heavy winds and rain to the discomfiture of helpers and patrons alike.

The helpers, and they were many, worked faithfully for the good of the cause, than which there is none better, several letters in recent weeks from men overseas having written in highest terms of the great work carried on by the Red Cross, to men in hospitals (bringing added cheer and comforts).

Convenor of the Grounds Committee Mr. G. H. Patrick who worked zealously gathering equipment, games etc. He was ably assisted by Rev. E. J. Head, B. Glendinning, N. Soland, J. Freeman, A. V. McParland, J. Gunn, A. Gray, L. Phillips, J. Wagstaff, Art Anderson, D. Newmeyer, H. McGregor, J. Robinson, D. McMurray, M. Lounsbury, N. Glendinning, J. A. Tench, Jas. Swanson and J. Sperros.

BAKE TABLE —
Mrs. Fessenden, Mrs. A. P. Gray, Mrs. McMurray.
The various booths were well patronized.

The Red Cross and Russian Relief Exhibits proved very interesting. The Bingo table was always tempting the coin from the hopeful.

The Tea Tent attracted a constant "full house" of guests.

In charge of various booths were the following:

Superfuity —
Mrs. Downie and Mrs. Percy Wright.
Tea —

Mrs. Marcum, Mrs. McParland, Mrs. Phillips, Mrs. Rellinger, Lois

AN ALLIED SIROCCO!

Sicily has had a very colorful history. The Phoenicians and Greeks planted it with colonies, it being then dominated successively by Romans, Goths, Saracens and Normans. In later years it was ruled by Angevin, Hapsburg and Bourbon dynasties and was ultimately liberated by Garibaldi when it became in 1861, a part of united Italy. Sicily is subject in spring and early autumn to visitation of the sirocco — a hot dry wind from the south, but Sicilians had much more on their minds, July 10, when Allied Armies invaded the island; and consolidated bridgeheads for the Second European Front.

Hard fighting lies ahead for the British, American and Canadian troops although lack of determined resistance in certain sectors has been surprising. Superbly-trained Canadian soldiers are in the thick of action after months and months of inactivity. They will prove their mettle!

THE AMERICAN SYSTEM

By ROBERT SUMMERS STOCKTON
Thompson Falls, Montana

Simultaneously with world wars, it seems that the world revolutions are involving every system of government. All nations and systems are on trial and in order to survive, each must defend its country and justify its way of life.

We know that the great majority of people in every land desire liberty, equal rights and opportunity, those things guaranteed to us by our "Bill of Rights." No matter what form of government is adopted or in power, it is not stable or permanent unless these rights are inherent or granted to the people.

The above are the two first paragraphs of a very worthwhile article written by Mr. R. S. Stockton, former Supt. of the C. P. D. N. R. in Strathmore. The article is published in pamphlet form and reprinted from the Mines Magazine of Denver Colorado.

The Standard is in receipt of this thought-provoking address. It is replete with suggestions for an improved system of national government, and

gives many of the weaknesses of the present system both in the United States, and the British Commonwealth of Nations.

The Editor of the Mines Magazine states: "It is our belief, that the reading of this article will awaken every one to the fact, that we as free American people have something at home to fight for as well as the winning of this war."

From a hasty perusal of this pamphlet The Standard very heartily recommends it either for individuals or Study Groups.

It is most timely now when we are all striving to build out of the present chaotic condition that exists, a system that will be more equitable for all, one that will provide Justice and Fair Play for all status of humanity of whatever creed or color.

Extra copies of the Pamphlet will be mailed to individuals at 10c per copy or in lots of 100 or more to one address for \$7.00.

When ordering write — Mines Magazine,

TRY TO GET LETTERS TO BOYS IN SICILY

Post-master General Mulock today told a questioner in the house of commons that efforts will be made to have mail and parcels delivered as soon as possible to Canadian troops in Sicily but that there might be some delay due to pressure on shipping facilities which must be made available for landing men, munitions and food.

A Hard Time Dance will be held in the hall on Friday, July 23rd. Get on your old glad rags folks! Fun for all!

The Russian Club of Carseland made and donated a quilt and 2 cushions to raise funds for the Aid to Russia. These were raffled on the 29th of June the winner of the quilt being L. A. Gehrike, Carseland. The cushions were of Paula Randle, of Parrou and Fred Popoff, Carseland. The amount raised was \$87.00.

Mr. and Mrs. Addison left Sunday for the Coast.

The C. A. Phillips family held a family reunion at the farm home on Sunday, honoring the return of Wendell Phillips, who has returned from mission work in China.

Mr. and Mrs. Jack Cole arrived Tuesday from the East. Jack has a two weeks furlough before returning to Montreal.

Mr. and Mrs. Ralph McKenzie are being congratulated on the birth of a daughter, July 4th.

Mr. Edward Cameron of Wainwright is visiting his sister and brother-in-law, Mr. and Mrs. Roland. Kathleen McKinnon and Pam Peterson returned Tuesday from the C. G. I. T. Camp at Millerville. Both report a good time.

Allies Continue To Advance In Sicily

The Allies are making steady progress in Sicily in spite of the stubborn resistance put up by the Germans.

Of the ferocious struggle around Catania, key to eastern Sicily, General Eisenhower said, "the Germans had attempted to establish a very strong line including Mt. Etna, and to do so brought reinforcements from the Italian mainland."

The General, however, expressed confidence in a complete victory on the island, but stated the allies faced bitter fighting and the prospect of a generally slow advance.

The fall of Enna a war prize through the centuries, isolated large numbers of Axis troops on the Western Coast.

Just what decision has been reached between Hitler and Mussolini has not yet been made known, while the surrender of Italy would be to themselves and the Allies apparently the wise course, it would be a tremendous blow to the morale of the Germans and to the occupied countries.

HAYING

Most farmers are busy haying at present and anxious to get all stacked while the weather holds. It is a valuable crop this year. Some farmers in districts where it is short, are paying \$12 a ton for it loose in the field and doing their own hauling.

CARSELAND'S OIL WELL

The MacWilliam's Oil Well at Carseland so named from the owner of the farm in which the well is being drilled is continuing to create considerable interest, locally and among Oil Men. The Well is now down 6000 ft. and drilling is still continuing.

THE 'OUT-SIDE'

● BARE HEADS TABOO —

Come prepared. Probably tradition, but lady visitors to the House of Commons galleries without a hat have to spread a kerchief or piece of Kleenex over their heads before entering the august presence. Men, of course, uncover. Seems — and sometimes looks — a little silly.

● The Lowly Clothes-pin —

The Prices Board has granted an increase of 2 1/2 of a cent a dozen on clothes pins. Doesn't seem much, but what does it mean to Canadian housewives? Curious I checked, found they use annually around one million three hundred and twenty thousand gross or over 150,000,000 pins to hang out the wash.

● Milk Weed —

Who's ever thought it! Research experts of the Department of Agriculture, although mum on the subject yet, are working on the production of rubber, resins and a superior kapok from species of the lowly milk weed. A group have returned here from the U. S. A., where they conferred with experts on progress made there along the same line. It appears it's getting into the post-experience stage because I hear they are even working on harvesting methods and machinery to make the once-pest get to work for the war-effort.

Mrs. Otto brought an article from the Chicago Tribune. It told of a ship in service with the American Navy. This ship, really a floating dry dock, is in the repair service. Its crew consists of 600 men 500 of whom are mechanics. They go about repairing other ships. They are equipped with a diving outfit and can work under water. They also have a real foundry aboard and can make any iron works they need. This was a very interesting item and was read by Mrs. Stoodley. Mr. and Mrs. Otto have a grandson in service on this ship.

**SOLDIER of the SOIL**

THIS year the Canadian Farmer urgently needs help. He needs your help to produce the food so necessary for victory. Many thousands of farm workers are serving in the Forces, so that the farmer—the Soldier of the Soil—is short-handed, but short-handed as he is, he is called upon to produce more food than ever before. Food is one of the most powerful weapons of war. Grains, bacon, dairy products, eggs, beef, fruit, vegetables—FOOD to feed our armies, our allies and our people we must have.

WHAT CAN YOU DO?

You may be a school teacher, student, business or professional man, an office or store clerk—no matter what you are, if you have a few hours, days, weeks, or months of free time this summer, you can do your country and the farmer a great and patriotic service by helping out on the farm. You may be inexperienced, but you still can help. You will find work on the farm healthy and congenial. It will give you the satisfaction of feeling that you have brought Victory nearer.

What you should do NOW!

—Canada in the Making—

PROF. Arthur L. Phelps of the University of Winnipeg is giving some very interesting broadcasts Sunday mornings on Nation Building as applied particularly to Canada from the point of view of writing and Canada's contribution to Literature.

In a recent broadcast he strongly emphasized the broadening benefit by being acquainted with the Poetry and Prose written by American Authors.

Last Sunday he advocated a keenly critical mind in appraising our Canadian writings as being of greater benefit to our standards of present and future writings than a general, full some sugar-coated appraisal.

Prof. Phelps concluded his challenging and interesting address by stating "The Canadian has a quality all his own in the making and toward the making of a great national literature and people, in which we all have a part, the Canadian Pattern."

BIG MOMENTS

Night of July 20, while Brooke Claxton, parliamentary assistant, addressed a sparse and somnolent House on External Affairs, I had the feeling somehow that momentous things were in the making. The Prime Minister and Defence Minister Ralston, only two cabinet members present, were close in huddle in adjoining front benches. The P. M. looked grave and pre-occupied. He was making a pencilled draft. Correcting, leaning over to check with Mr. Ralston, pencilling some more. At 8 o'clock next morning I heard his radio announcement to the nation that Canadians were fighting on the beach heads of Sicily. He may have been drafting that important speech as I watched, even while all of Canada was unaware of history-making events taking shape thousands of miles away. Surely they knew. What a secret to carry!

In a spirit of humility but resolution I thought, political leaders in the house referred to Dominion Day, 1943, as they were in session. Significant excerpts! Prime Minister King, "By our strength in war, and by our understanding and co-operating in peace, Canada can contribute mightily to the building of a better world." Mr. Graydon, "Progressive Conservative," "our armed forces, we owe them a debt of gratitude difficult to pay—resolve to pay them that debt, no matter how much it may be." Angus Macnaul, C. C. F. pinch-hitting: "If we are to have peace and harmony then we shall have to start thinking in terms of world community, not Anglo-Saxon, not only of English speaking races, but of the whole world." J. H. Blackmore, Social Credit: "cause for deep satisfaction that we have boundless responsibilities for feeding of the people of the world and for the rehabilitation of the world."

TO FATHERS—
COMRADE AND CHUM

Be more than his dad,
 Be a chum to the lad;
 Be a part of his life
 Every hour of the day;
 Take time to talk with him,
 Take time to walk with him,
 Share in his studies
 And share in his play;
 Take him to places,
 To ball games and races;
 Teach him the things
 That you want him to know;
 Don't live apart from him,
 Don't keep your heart from him;
 Be his best comrade,
 He's needing you so.

World Gives Canada a Flag

The world at large has not waited for parliament to design a distinctive flag for Canada; it has accepted the Red Ensign with the Dominion's coat of arms in the field as Canada's national flag. The Union Jack is, of course, the "official" flag of the Dominion, and is flown on all public buildings. Aboard, however, our allies use the Dominion's mercantile flag as Canada's own.

The Canadian army in Britain has a special flag and the R. C. A. F. has its own emblem for use at home and abroad. But the Canadian flag most widely known, because it is seen in many foreign ports, is the Red Ensign flown by our merchant ships. They have been using it since 1892, so it is little wonder other countries regard it today as Canada's flag.

With the exception of Canada, all the British dominions and India, Burma, Ceylon and many of the colonies and protectorates have their distinctive flags. — (Edmonton Journal).

PUT UP ALL HAY POSSIBLE

Hay and forage crops are likely to be scarce during the ensuing twelve months. If at all possible farmers who are fortunate enough to have hay crops should see to it that every pound of hay is cut and put up. If next winter turns out to be a hard one fodder will be valuable. It is true that labor is scarce and farmers are badly overworked but hay and fodder crops must be made available if the livestock population is to be carried over another year.

ROCKYFORD

— By R. M. G. —

A very successful tea and ice cream social was held at the United Church on Wednesday, July 14th. Commencing at 5.30 the nicely decorated tables were well filled many times and the good home made ice cream added a festive touch. The Ladies Aid, who sponsored the event were well pleased with the results, especially as they have declared a two month holiday and will not meet again until the 2nd. Thursday September.

Mr. Wm. Chapman, second son of Rev and Mrs. Chapman, of Delbourne formerly of Rockyford, is at present visiting with his sister, Mrs. Francis Kenworthy, just east of town.

Mrs. Jack Agate of Calgary is the guest of Miss Eva Piggins for a short time. Ruth Agate is well known in the district having lived here before her marriage.

An interesting Sports Day program is posted for Rockyford for Wednesday, July 25th. A softball tournament and racing and sports of all kinds are arranged. There will be a big dance in the evening.

Rockyford's two Miss Canadas made a very good start on Saturday evening on their War Savings Stamp drive. The idea was new to many people but even so returns were good, and as they become more accustomed to the wonderful work Miss Canadas are doing everywhere, no doubt those cheerful girls will be popular whenever they make an appearance during this month or before the drive is closed.

Mrs. Ruby McBride of Byemore visited a couple of days with her sister, Mrs. Gibson of Rockyford. She is en route to Manitoba, the old family home.

Mr. Edwin Bragg, who has had leave to help his Mother on the farm returned last week to his unit with the R. C. A. F. in Ontario.

Mr. and Mrs. Frank Ewing have his sister of Edmonton and his aunt from Seattle visiting them at present. He also expects a visit from his brother, who is flying back from California to be with the family for a reunion.

RURAL GLEICHEN

Mrs. A. Buckley and daughter Norma and son Jim Elder, who was home on leave from Petawawa, were visiting friends one day last week.

Word has been received that Bob Riddell has arrived safely overseas.

Mrs. F. Sammons invited the U. F. W. A. ladies to her house last Wednesday afternoon to card wool for the quilt that the organization is going to make. But the rain came in time to keep most of the ladies at home.

Mrs. J. C. Buckley of Calgary and granddaughter Patsy Buckley of Olds have gone to the coast to visit relatives this summer.

Donald McArthur and Oliver Corbett made another trip to Olds for timber.

Mr. W. Halstead and Dick Thomas went to Calgary Friday to see Jack Thomas who had been rushed to the hospital for an emergency appendicitis operation.

K. Sammons is having his house repaired.

The F. Pierrard family are enjoying a new automobile.

For Farm Boys

Farming requires a wide variety of skills and a lot of knowledge. The farmer must be a mechanic to get the best out of machinery, a botanist to recognize weeds and mixtures in his crops, a breeder to select the best sires and dams, a nutritionist to fit his stock for the market economically, a pathologist to recognize and control diseases in his crops and livestock, and so on. In addition, he must be a business man and a useful member of his own community.

Our colleges of agriculture have done wonders in training men who wish to devote their lives to research and experimentation; but this is not all. They also provide courses for those intending to farm. These courses do not pretend to teach a boy how to farm, but they do teach him a lot about farm problems that cannot be learned at all, or only with great difficulty, elsewhere. In addition to much useful knowledge of crop production, livestock management, and agricultural engineering, the student mixes with farm boys from all over his province, and learns something of their problems. He returns to his farm a better farmer and a more useful citizen.

Agricultural training is offered at the School of Agriculture, Olds, Alberta; the University of Saskatchewan, Saskatoon; and the University of Manitoba, Winnipeg. Write to these institutions for information on School of Agriculture courses and short courses in special subjects. Extra copies of this article with additional information may be obtained from line elevator agents.

OTTAWA SPOTLIGHT

By M. McDOUGALL
Weekly Review of National Affairs
Canadians in Sicily—

There has been some quite natural annoyance over the lack of information on who is in direct command of the Canadian force in Sicily. This may be made known at any time, but what has been difficult to discover is how it is in the interest of security to keep the name of the Canadian divisional commander wrapped up in secrecy so long after the invasion has started. There was a pretty general protest in the house of commons, voiced quite definitely by the prime minister, against restriction on the announcement that the Canadians were in Sicilian attack until about a full day after the attack was launched. The announcement from Washington by military headquarters on midnight Wednesday, relieved the prime minister of his obligation but the point was made quite clear for the future, our troops in Sicily are quite obviously the largest group of Canadians fighting together since the last war. Canadians are naturally proud that at last the days of inactivity for their fighting men are over and are therefore more than anxious that there must be no delay in according them credit where credit is due. However, they are getting very considerable publicity zone these days.

These are long days in parliament from 11 in the morning to 11 at night with intermissions for meals - with Saturday thrown in for good measure. The long hours, six day week with occasional days that are almost torrid, makes M. P.'s yearn for the quiet of their homes or even the comparative quiet of a byelection campaign. Most of the work of parliament has been concerned with the grants to different departments under the \$3,890,000,000 war appropriation bill.

General Giraud's Earnest Attitude—

The work of parliament has been pleasantly relieved by the visit of General Giraud, the co-president of the French Committee of National Liberation and Dr. Evatt, the Australian minister of external affairs. General Giraud who knows little English addressed newsmen last Friday for almost an hour in his native tongue. There is no question of the sincerity and deep-seated patriotism of this distinguished soldier who escaped from a German prison camp and who is helping to mould the 300,000 Frenchmen of North Africa into a strong fighting force, well trained and becoming well equipped. About 75,000 French troops took part in the Tunisian battles and acquitted themselves with distinction. They had about 15,000 casualties. The underground movement in France, he said, is growing stronger. The general who spoke of the miseries and humiliations of France, lives for the day when the armies of the United Nations including the French, march into Berlin. The tall, dignified soldier, with arms crossed, spoke sometimes sharply as if addressing his troops, and sometimes in low grave tones, but always with optimism of the future of his fatherland.

Australian Minister Optimistic—

Dr. Evatt, heavy set, friendly and easy of approach, was in much better humor than when he visited in this country a little over a year ago. Then he was oppressed by the dangers that threatened his country and was conscious of the lack of equipment, in Australia to fight off possible invasion. Now the situation has of course vastly improved. A point he made when chatting with newsmen, answering all questions with candour but occasionally saying "that of course is off the record" was that while the war could not now be lost it might be unduly prolonged if we slackened up and became complacent. What we needed was victory over Germany and Japan,

and victory at the earliest possible moment. He had long discussions with members of the war cabinet. Canada is supplying Australia with war equipment under the Mutual Aid Bill. Communist Pan—

One of the outstanding features of a very interesting debate in the commons on Canada's foreign policy was the difference of opinion on the future of collective security in the world. Some held that as this war showed as never before that no nation, particularly no small nation could stand alone, the only hope lay in some form of collective security. Others held that under a form of supra-national government, people become overconfident and apathetic and without adequate preparation become easy prey to an aggressor. Too great belief in the power of a new form of collective security might mean the complete destruction of our countries in the next war. There was surprisingly little emphasis laid on the first urgent necessity of taking measures to prevent the aggressors from rearming and start a fresh war as a prelude to any form of collective security, but no doubt this was taken for granted by many speakers.

While the question of joining the Pan-American Union still remains open, Canada is doing everything in its power to give increased vitality to its mutual goodwill with Latin American countries. There will be an increase in diplomatic representation in these countries.

Then there was the little Moron who thought his tire went flat because there was a fork in the road.

Customer—I thought I saw some soup on the bill of fare!

Waiter—There was some but I wiped it off.

Doris F.—Do you know, Frank, a kiss speaks volumes?
Frank B.—Okay, honey. Let's us start a library right now.
